UTC@MediaCityUK

A unique new college for 14-18 year olds based in the heart of the northern digital world – MediaCityUK

Main focus is ensuring the future employability of our students within the digital media sector, whether that be in digital marketing, radio production or television broadcasting.

Students at UTC@MediaCityUK will develop professional digital and media skills as part of an academically rich curriculum that will see them work on a selection of projects and make contacts with a large variety of media professionals from the local area.

Ron Dearing UTC, which opens in September 2017, will provide 14-18 year olds with an education combining study for core GCSEs and A Levels with the practical, technical and vocational learning and qualifications that employers and universities look for.

The UTC specialises in Digital Technology and Mechatronics and will allow students to work on exciting projects with experts from the University of Hull and hugely successful local employers. Its students will gain the knowledge, skills, attributes and qualifications they need to have the widest possible choice of career pathways.

The state-of-art building, located in Hull city centre, will provide industry standard technology as well as workshops, a design studio and an arena where large scale machinery, drones, robots and remote controlled vehicles can be tested.

Leigh UTC offers 14 – 19 year olds in the Dartford region the opportunity to study a technical based programme of learning alongside core GCSE and A-Level subjects. The UTC specialises in providing an education for young people in Computer Science, Engineering and Manufacturing.

Its students work on real-world projects and develop skills by taking part in work experience placements offered by employer partners.

The school runs a business mentoring programme for its students to develop self-confidence, self-awareness, self-esteem and improve progress in their academic studies, raise their aspirations of their own academic potential, future career and employment opportunities.

Cardiff Council established the Creative Education Partnership Cardiff to work with the creative and cultural sector in order to better connect to education, raise aspirations and achievement. A Cultural Broker will, in the first instance, work with a one school pathfinder, building relationships in the community and with employer partners. It is hoped that the pathfinder will then build good practice to extend to other Cardiff schools and to other sectors. The Partnership Charter states:

The Partnership aims to: Enthuse and inspire young people, supporting their educational achievement through rich and meaningful engagement with the creative economy

It will:

• Facilitate learning opportunities through a collaboration between the creative sector and schools
• Broaden horizons and raise aspirations by engaging young people in the economic life of the city
• Work to ensure that education in Cardiff fully reflects, connects with and celebrates modern Wales

Young People will be: Inspired by opportunities designed to foster their creativity and develop their skills to be resilient, innovative and problem solving learners

Communities will be: Empowered through meaningful projects and activities with employers and partners in the creative sector

The City will be: Enhanced by developing a talent pipeline that will support and enrich the creative economy in the future

The following pages show the structure of the Partnership and the roles and responsibilities of all those involved.
The Partnership Board will be the ‘Founding Partners’, taking the lead in setting the vision, promoting the initiative with colleagues across the sector, and sitting on the Partnership Board.

Other Employers and Industry Partners will commit to working with the One School Pathfinder through the Cultural Broker by nominating a ‘Creative Champion’ from within their organisation. The Creative Champion will act as a liaison point for work with the school and its community, collaborating with the Cultural Broker to identify suitable projects and opportunities for their organisation to contribute to. The role should be onerous, particularly for smaller organisations, but rather a point of contact who will be kept informed about the work of the Partnership and Pathfinder project and will guide their organisation as to how best they might contribute dependent on their available resources.
Creative Education Partnership Cardiff
Overview

Cultural Broker will deliver:
1. Real-world learning opportunities for students
2. Mentoring by industry partners
3. Support for a cultural entitlement for all students
4. Staff and Governor development and training opportunities
5. Appropriate work experience opportunities for students
6. Highly visible cultural and creative activities in partnership with the community
7. Support for those wishing to start a business in the creative and cultural sector
8. Careers advice on how to access opportunities in the creative and cultural sector
Inviting the community in – informal workspace

Newry Hub
http://www.thehubnewry.com

Collaborative work space providing co-working space, registered address & mailbox facilities, permanent desks, hot-desks & meeting rooms.
Inviting the community in – informal workspace

Ziferblat

http://www.ziferblat.co.uk

Sitting room, shared office space, private meeting rooms and a full programme of events. Users pay 8p a minute to use the facilities.
Inviting the community in – informal workspace

Kensington Creates

http://www.creates.org.uk

Within Kensington Aldridge Academy, Kensington Creates is a unique co-working hub and business incubator designed to help young entrepreneurs start and grow their businesses. The space ties in with the academy’s focus on entrepreneurial education. The entrepreneurs housed in the business incubators are actively engaged with Kensington Aldridge Academy students by leading Creates Club during Enrichment.
